Planning Supervisor – Cable Jointing

- *World class infrastructure platform.*
- *Help us keep the lights on and our community connected.*
- *Opportunity to further develop in your career.*

About EA Networks

At EA Networks, we are focussed on ensuring our community has access to world class, reliable and affordable network infrastructure. We are the trusted infrastructure platform that delivers electrical energy to every home and business in our region. We own and operate our region's electricity distribution network and fibre optic communications network, which we continuously invest in to ensure that we keep the lights on and the web connected.

About the role

Your focus will be to organise and plan the execution of work for the Underground Department. You will also assist with the supervision of the underground crews when required.

While promoting and practising positive health and safety, you'll be responsible for coordinating employees and/or contractors to ensure assigned tasks are meet to the required outcomes, prepare job packs, carry out site visits/checks, ensure plans/drawings are up to date and complete the sign off for electrical compliance.
