Application Support Analyst

- *World class infrastructure platform*
- *Help us keep the lights on and our community connected*

About EA Networks

At EA Networks, we are focused on ensuring our community has access to world class, reliable and affordable network infrastructure. We are the trusted infrastructure platform that delivers electrical energy to every home and business in our region. We own and operate our region's electricity distribution network and fibre optic communications network, which we continuously invest in to ensure that we keep the lights on and the web connected.

About the role

We are seeking an Application Support Analyst to contribute to the effective running of our primary business system and related interfaces. This position will deliver quality customer-focussed service and be a first point of contact for our ERP application. Proactive application management, monitoring and maintenance will be a key aspect of the role, as will managing internal business requests and queries.

Required Skills & Experience

- 3 years' experience working as business systems support, business intelligence, business analyst or similar.
- High attention to detail and well-developed analytical skills.
- Practical experience in identifying and implementing business process, procedural and functional improvements in an ERP environment.

Connecting our community

- Sound IT skills, including all Microsoft Office products (at intermediate/advanced level).
- Knowledge of TechnologyOne or another ERP administration highly desirable.
- Knowledge of SQL and relational databases ideally worked with MS SQL Server
- Knowledge of spatial applications desirable.
- Knowledge of the NZ Electricity Distribution industry and associated business processes is highly regarded.
- Well-developed communication skills and the ability to work as part of a team.
- Class 1 Drivers Licence
- Relevant experience or tertiary qualifications.

Join Us

A competitive salary package is on offer for this role, as is the opportunity to work for a stable, trusted organisation at our modern, purpose-built business park premises. EA Networks has a strong focus on people, culture and a commitment to leading edge technology.

Ashburton is a vibrant and buoyant district. Just one hour from Christchurch Airport. It offers good housing, schools and a growing community infrastructure that is among the best in New Zealand.

Applications close Monday December 2nd 2019 at 4pm.

Please note: Applicants for this role must be legally entitled to work in New Zealand and be available at short notice to attend an on-site interview at our office.
