### **About EA Networks**

At EA Networks, our people are critical to ensuring we deliver our promise to keep the lights on and the web connected in Mid Canterbury. We are a stable, successful, industry-leading business which is currently looking for highly motivated people to join our innovative, friendly and dedicated team.

### **About the role**

We are seeking a Power Management Systems Engineer, which is a key technical and lead system role within our business. We're looking for a motivated team player who can manage the establishment, development and maintenance of an applications-based Power Distribution Management System.

### **Required Skills & Experience**

- Two years'+ experience in a Power Systems, Control Systems or Applications Configuration gained at a complex industrial site or utilities environment utilising automation technologies
- SQL Databasing or equivalent
- Understand Virtual Computing Environments & Clusters
- GE PowerON or OSII or Survalent or similar Power Distribution Management System is desirable
- Exceptional interpersonal, team working and communication skills
- Ability to self-manage and multi-task on several projects in parallel in a fast-paced environment.

- Relevant training and qualifications; Electrical/Automation Engineering, Information Technology, Computer Science or equivalent.

## Join Us

Competitive remuneration is on offer for this role, as is the opportunity to work for a trusted organisation at our modern, purpose-built business park premises. EA Networks has a strong focus on people, culture and a commitment to leading edge technology. If you would like to pursue the opportunity presented by this dynamic role, please submit your CV and Covering Letter in confidence.

**Please note:** Applicants for this role must be legally entitled to work in New Zealand and be available at short notice to attend an on-site interview at our office. For more information about the role and EA Networks, please visit [eanetworks.co.nz](http://eanetworks.co.nz).
