

Career Opportunities

As-Built and CAD Technician

EA Networks is a locally owned cooperative network company based in Mid Canterbury. It owns and operates the region's electricity distribution network, as well as an advanced fibre optic communications network. Being locally owned and operated means EA Networks and its 140+ staff, have strong ties to the local community that they work and live in. The core focus for EA Networks is on infrastructure investments that provide economic benefit to the region, maintaining a resilient electricity network and supporting the local community. More information is available on our website www.eanetworks.co.nz

We are seeking a keen As-Built and CAD Technician for a permanent, full-time role in our Network team based in our modern Ashburton offices. On offer is a competitive salary and the option of a flexible working arrangement (9-day fortnight) – not to mention affordable housing and proximity to skifields and lakes! Want to know more?

What does the role involve?

You will be visiting active work sites to capture the specific location and installation characteristics of assets owned by EA Networks. You will continually update and maintain spatial records using AutoCAD, assisting EA Networks to keep track of power and fibre-optic infrastructure. You will also support our the ongoing development of our spatial data capture process and the way this information is shared, both across the organization and externally.

About You

You'll ideally be a fluent user of AutoCAD and have some experience within the electricity distribution industry. It's essential that you have great communication skills and a sharp eye for detail. Being a team player who is willing to help colleagues where and when needed is key. You will need to be able to confidently converse with a range of individuals, from Labourers through to our technically knowledgeable senior staff.

You will also need:

- Experience working outdoors around active work sites
- The ability to take measurements using mechanical and electronic tools
- Ability to read and understand plans

To Apply

If you are drawn to the opportunity to join an established local company, please submit your cover letter and CV to rtaufa@eanetworks.co.nz. Our vacancy close dates may be subject to change, so don't delay and make sure you apply as soon as possible.

Please note, our workplace is drug and alcohol free - the successful applicant will be required to undertake a pre-employment drug test and medical.
