

# Career Opportunities

## Listing:

### **Apprentice Electrician**

- *World class infrastructure platform.*
- *Help us keep the lights on and our community connected.*
- *Great opportunities to develop your skills.*

## About EA Networks

At EA Networks, we are focussed on ensuring our community has access to world class, reliable and affordable network infrastructure. We are the trusted infrastructure platform that delivers electrical energy to every home and business in our region. We own and operate our region's electricity distribution network and fibre optic communications network, which we continuously invest in to ensure that we keep the lights on and the web connected.

## About the role

As an apprentice at EA networks, you will learn and work alongside our experienced team every day. We will guide you through the apprenticeship scheme so you will become a qualified electrician in the electrical supply industry.

This is a genuine opportunity to begin your career in a supportive, highly successful and growing business and become a confident, qualified electrician.
